President + Brief Status Update

My Gal, appointed by this court, has decided to "kick the can down the road" so to speak on making a decision re: my competency, because he thinks that an "upcoming" guardianship hearing (which hasn't been scheduled yet) will be informative on the issue, or at least more informative than my medical records, which he has refused to examine, preferring instead to get his information from parties with whom I am in adversarial litigation (and who have a vested interest in maintaining the status).

The problem is, the guardianship hearing isn't "upcoming", largely because my lower court-appointed attorney finally withdrew from my case, but also because I've moved for a new hearing, and also an interlocutory appeal in NH S. Ct.

He's not up on this information because he's on vacation, and it's nearly impossible to communicate with him when I'm forced to pretend he's the 6th Circuit District court just to get the free att'y mail I'm entitled to by law...

I just wrote my second brief to NH. S. Ct. trying to litigate the return of my car keys.

I resent that I must frangle for our sorry excuse for a state court because Mr. Sklar is afraid of giving wrong + looking foolish in front of the tribunal. I am long held in a prison for dr's of depression + PTSD (not surprisingly, due to being in prison); this is not even a close call..... Mailed 10/11/23 by Grace Woodham, in pro per. Counsel
